

## **Robocop**

Height : 1.55 m

Width : 0.99m x 0.91m

Weight : 155 kg

Owing to the following limitation of Robotcop, prior site inspection must be conducted.

- (1) Due to transportation difficulties, Robotcop can only climb over an obstacle below 54 cm in height (equivalent to 3 steps of a staircase). Due to its heavy weight (155 kg), balanced handling of Robotcop is impossible. Besides, when removing it, extra care must be exercised so as to avoid hitting its aluminium alloy casting against other objects.
- (2) Since Robotcop is equipped with computer hard disk, LCD monitor, radio receptor and transmitter, infra-red detectors and other digital audio-visual facilities, it should not be exposed to direct sunlight or rain so as to avoid any possible interference of its functions and sensitivity. Therefore, the venue assigned for Robotcop show should be a covered area.
- (3) The site for Robotcop show should be glare-free, with no electric wave interference from wireless microphone, amplifiers and electronic devices alike so as to avoid any effects on Robotcop's remote control function.
- (4) The site must be flat, with ample space for free movement of Robotcop.
- (5) There must be adequate parking space for a police vehicle carrying Robotcop. The police vehicle is 1.95 m tall and 4.5 m long. An area of 4 m x 2 m should be reserved at the back of the parking space to allow loading / unloading of Robotcop.
- (6) Robotcop can operate for about 4 hours continuously after being charged for 24 hours.

# Robotcop Show Application Form

Name of School/ Institution (English) \_\_\_\_\_  
(Chinese) \_\_\_\_\_

Address (English) \_\_\_\_\_  
(Chinese) \_\_\_\_\_  
\_\_\_\_\_

Date of Reservation \_\_\_\_\_

Time (a.m.) \_\_\_\_\_  
(p.m.) \_\_\_\_\_
