序言 Foreword

二零二四年，香港特别行政区政府（特区政府）成功完成《基本法》第二十三条本地立法的宪制责任，完善维护国家安全的本地法制及执行机制。《香港国安法》与《维护国家安全条例》兼容互补，为香港筑起维护国家安全的坚实屏障，进一步巩固香港的长期繁荣安定。站在维持治安的最前线，一支专业高效的警队至关重要。这一年是香港警队成立 180 周年，意义非凡。警队所有人员继续传承优良传统，本着「忠诚勇毅 心系社会」的专业精神，乘风破浪，竭力「守护我城 跨越 180」。

In 2024, the Hong Kong Special Administrative Region (HKSAR) Government fulfilled its constitutional responsibility of enacting local legislation under Article 23 of the Basic Law. The completion of the legislative process has strengthened the legal system and enforcement mechanisms for safeguarding national security. The Hong Kong's National Security Law and the Safeguarding National Security Ordinance are compatible and complementary, serving alongside as a strong line of defence to safeguard national security and a further reinforcement of the city's long-term prosperity and stability. A professional and highly efficient police force is indispensable at the forefront of maintaining law and order. This year is immensely significant as it marks the 180th anniversary of the establishment of the Hong Kong Police Force. All members of the Force embrace our proud traditions and uphold our professional commitment to 'Serving Hong Kong with Honour, Duty and Loyalty', steadfastly overcome every challenge as we forge ahead to 'Safeguard our city beyond 180 years'.

坚定不移 保国卫民

「国安」则「家好」。国家安全和社会稳定是「谋发展，拼经济」的大前提。二零二四年是维护国家安全的里程碑，特区政府成功完成《基本法》第二十三条本地立法的光荣使命，于三月二十三日正式实施《维护国家安全条例》。在立法过程中，警务处积极协助律政司及保安局完善条文细节，最终不负所托，合力完成这艰巨的历史任务。虽然现时社会表面恢复平静，但地缘政治仍然不稳，国安风险犹存，所以我们必须时刻居安思危。

在国家安全层面，警队秉持「有法必依，违法必究」的原则。国家安全处（国安处）自二零二零年七月成立以来，共拘捕 316 名涉嫌干犯危害国家安全罪行的人士。警队会持续加强内部培训，巩固人员对相关法例及处理危害国安活动的认知和敏感度。

Resolute in Safeguarding the Nation and the Public

Security brings prosperity. National security and social stability are fundamental prerequisites for development and economic growth. The year 2024 marks a pivotal chapter for national security, as the HKSAR Government accomplished its glorious mission with the enactment of local legislation under Article 23 of the Basic Law, officially bringing the Safeguarding National Security Ordinance into effect on March 23. Throughout the legislative process, the Force actively supported the Department of Justice and the Security Bureau in refining the provisions. We fulfilled our responsibilities and collectively completed this arduous historic mission. Although our society currently appears calm on the surface, ongoing geopolitical uncertainties and persistent national security risks underline the need for unwavering vigilance and preparedness at all times.

In safeguarding national security, the Force remains resolute in ensuring that laws are observed and strictly enforced, so as to bring offenders to account. Since the establishment of the National Security Department (NSD) in July 2020, 316 individuals suspected to have committed offences endangering national security have been arrested. The Force will continue to step up internal training, strengthening officers' understanding of relevant laws and their awareness and sensitivity in handling activities that endanger national security.

维护国家安全是市民应有的公民责任。国安处举报热线于二零二零年十一月开始运作，至今共收到市民超过 85 万个举报讯息，有效协助维护国家安全的工作。警队会继续联动社区，进一步向公众尤其年青一代推展国安教育，提升危机意识，与社区携手维护国家安全。

Safeguarding national security is a shared civic duty. Since its launch in November 2020, the NSD reporting hotline has received over 850,000 tip-offs from members of the public, effectively supporting the efforts in maintaining national security. The Force will continue to engage the community for further promotion of national security education, especially among younger generations, and raise public awareness of potential risks while working side by side with the community to safeguard national security.

众志成城 守护社群

二零二四年，在社会各持份者、市民大众和警队的共同努力下，香港治安情况大致维持平稳。全港共录得 94 747 宗罪案，较二零二三年的 90 276 宗上升 5%，升幅主要由诈骗案带动。

诈骗案有 44 480 宗，较二零二三年的 39 824 宗上升 11.7%。相较过去两年每年录得逾四成升幅，二零二四年的升幅明显收窄，反映警方与持份者近年携手推出的多项防骗措施渐见成效。

United in Protecting Society

Law and order in Hong Kong remained largely stable in 2024 under the concerted efforts of relevant stakeholders, members of the public and the Force. The number of criminal cases recorded across the territory was 94,747, representing a 5% increase from 90,276 in 2023, mainly attributed to deception cases.

Deception crimes increased by 11.7% to 44,480, up from 39,824 in 2023. However, unlike the over 40% annual growth seen in the past two years, the rise in 2024 has significantly slowed. This demonstrates that the joint anti-fraud initiatives took by the Force and stakeholders in recent years are gradually yielding results.

撇除诈骗案，其他多项传统罪案如凶杀、行劫、爆窃、伤人及严重殴打、严重毒品罪行、盗窃、刑事毁坏、刑事恐吓、纵火等均有所下跌。这些传统罪案的数字在二零二四年处于较低水平，不少更是有纪录或多年以来的新低，个别破案率更达到有纪录以来最高。举例，行劫案共 90 宗，按年下跌 7.2%，为一九六九年以来第二低，而破案率则达 92.2%，为有纪录以来最高。

警队自二零二四年四月起于全港各区安装闭路电视，至年底已安装 615 组镜头，并将于二零二五年内完成首阶段安装 2 000 组镜头。年内，系统已成功协助警方侦破 122 宗案件，拘捕 202 人，值得注意的是，在 28 宗涉及凶杀、行劫或爆窃的案件中，有九成（25 宗）于两天内侦破。闭路电视是有效协助警方防罪灭罪的重要工具，配以警队人员的努力不懈及专业调查，显著提升打击罪案的成效。

Excluding deception cases, a range of traditional offences—such as murder, robbery, burglary, wounding and serious assault, serious drug offences, theft, criminal damage, criminal intimidation and arson—recorded decreases. In 2024, the incidence of these traditional crimes remained low, with many reaching their lowest levels in years or since records began. Certain detection rates were the highest on record. For example, there were 90 reported robberies, a 7.2% year-on-year decline and the second lowest since 1969 while the detection rate reached the ever highest level of 92.2%.

In April 2024, the Force began installing closed-circuit television (CCTV) cameras across the territory, finishing 615 sets by year-end. The first phase, totalling 2,000 sets, is scheduled for completion within 2025. Over the year, the system effectively assisted the Force in solving 122 cases and led to 202 arrests. Notably, of the 28 cases involving murder, robbery or burglary, 90% (25 cases) were resolved within two days. CCTV has proven to be a crucial and effective tool that helps the Force prevent and detect criminal activities. Coupled with the unwavering commitment and professional investigations of Force members, the effectiveness in combating crimes has been considerably strengthened.

诈骗案已逐渐成为全球广泛地区的主要罪案趋势。警方除了继续针对诈骗集团加强打击力度，亦与律政司紧密合作，提升调查及检控傀儡户口持有人的效率，并就合适的案件向法院申请加刑，加强阻吓力。年内，警方已成功令 43 名傀儡户口持有人的刑期增加 13% 至 33%。

警方继续采取多机构模式，以多管齐下的措施加固防骗保护网，并提高公众的防范意识。回顾过去一年，警方继续与香港金融管理局、银行业界、通讯事务管理局办公室及电讯商紧密合作，推出一系列加强措施，包括将「可疑帐号警示」机制的适用范围由「转数快」平台扩展至网上银行、银行柜位，以至自动柜员机转帐交易。机制已覆盖绝大部分转帐渠道，如收款帐户是警队「防骗视伏器」已记录的可疑帐户，系统会在用户确定交易前向其发出高危警示。

Deception crimes have emerged as a prominent crime trend worldwide. Apart from stepping up efforts against fraud syndicates, the Force has also worked closely with the Department of Justice to boost the efficiency of investigating and prosecuting stooge account holders, and to seek more stringent sentencing in appropriate cases to intensify deterrence. During the year, the Police secured extended prison terms for 43 stooge account holders, with sentence durations rising by 13% to 33%.

The Force has consistently implemented a multi-agency approach and a multi-pronged strategy to strengthen anti-scam measures and raise public awareness of fraud prevention. Over the past year, the Force maintained close collaboration with the Hong Kong Monetary Authority, the banking sector, the Office of the Communications Authority as well as telecommunications operators to launch a series of reinforced initiatives. These included expanding the suspicious account alert mechanism beyond the Faster Payment System to cover transactions conducted through online banking, bank counters and automated teller machines. The mechanism now encompasses the vast majority of fund transfer channels. If the recipient account is flagged as suspicious on the Force's Scameter, a high-risk alert will be issued to users before the transaction is confirmed.

反诈骗协调中心及反诈骗联合情报中心继续发挥重要作用，透过与本地银行协作，主动向潜在受害人发出预警，成功劝阻超过 3 000 宗进行中的骗案，而止付请求的回覆更大幅提速至一小时。反诈骗协调中心亦成功就 1 372 宗骗案拦截 14.8 亿元骗款。

The Anti-Deception Coordination Centre (ADCC) and the Anti-Deception Alliance have consistently played key roles by partnering with local banks to proactively issue alerts to potential victims, successfully intervening in over 3,000 ongoing cases, and significantly reducing the response time for stop-payment requests to an hour. The ADCC has also intercepted fraudulent payments totalling \$1.48 billion across 1,372 deception cases.

为进一步鼓励市民使用「防骗视伏 App」，警方以公私合办方式推出「全城反诈大抽奖」，程式下载量由活动公布前的 57 万增至超过 87.4 万。「全城反诈嘉年华」、「大湾区青少年人工智能及网络安全挑战赛 2024」等活动亦成功凝聚社区力量，强化公众防骗及网络安全意识。

To further encourage the public to use the Scameter+ mobile app, the Force launched the Anti-Scam Lucky Draw through public-private partnership. The number of downloads rose from 570,000 prior to the campaign to over 874,000. Events like the Anti-Scam Carnival and the Greater Bay Area Youth Artificial Intelligence and Cyber Security Challenge 2024 also effectively mobilised community support and promoted public awareness of fraud prevention and cyber security.

尽管青少年涉及严重毒品案件的人数由二零二一年的高位（430 人）持续下跌至二零二四年的 129 人，累积跌幅达 70%，而被捕学生人数更累积下跌 76.9%，社会仍须防范新兴毒品，特别是依托咪酯对青少年的祸害。警方持续在社区，特别是在校园，积极推广「毒品，咪制！」的信息。除继续推展禁毒领袖学院，延续过去三届栽培禁毒领袖的成果，年内亦为小学生举办超过 50 场「互动禁毒剧场」，以更「入屋」的手法传递有关大麻及依托咪酯的资讯。

The number of young people involved in serious drug offences has continued to decline, dropping from a peak of 430 in 2021 to 129 in 2024—a cumulative decrease of 70%. The decline was even more pronounced among students, with a cumulative decrease of 76.9%. Nevertheless, society must remain highly vigilant against the harm posed by emerging drugs, especially etomidate, to young people. The Force has continuously and proactively promoted the message 'Drugs? Never, ever!' across the community, with a special focus on schools. In addition to continuing the work of the Leadership Institute on Narcotics, which has successfully cultivated three cohorts of anti-drug leaders, more than 50 performances of the *Interactive Anti-drugs Drama* were organised for primary school students during the year, providing information on cannabis and etomidate through a more relatable approach.

确保公共安全是警队一直以来的核心职责。虽然香港的恐怖袭击威胁评估仍维持在「中度」级别，但环球恐怖主义形势复杂多变，我们须时刻保持高度警惕，特别留意本土恐怖主义的潜在威胁。要有效防范恐怖主义，市民的参与和合作至关重要。跨部门反恐专责组致力推广以「全民反恐 见疑即报」为题的公众教育，重点宣传「反恐举报热线」及「反恐赏金」，鼓励市民及早举报任何可疑活动。举报热线自二零二二年六月设立以来，共接收超过 35 000 个举报讯息。专责组年内亦首次与香港青年协会合作，推出流动宣传车「安全社区流动体验馆」，以更具互动性的方式向青少年灌输反恐意识。行政长官于二零二四年《施政报告》提出设立反恐「三层防范机制」，专责组将加强协调纪律部队及其他政府部门的反恐工作，并加强情报搜集、跨部门演练及公众宣传教育等工作。

启德体育园将于二零二五年启用，迎来连串国际及本地盛事。为确保这个重点基建顺利开幕，警方成立「演练专责

Ensuring public safety has long been a fundamental responsibility of the Force. Although terrorism threats to Hong Kong remain at a 'moderate' level, the global terrorism landscape is highly dynamic and complex, requiring ongoing vigilance with special attention being given to the potential threats arising from local terrorism. Public participation and co-operation are crucial for counter-terrorism (CT). The Inter-departmental Counter Terrorism Unit (ICTU) is dedicated to advancing public education under the theme of 'Spot and Report'. Additionally, it actively promotes the CT Reporting Hotline and the CT Reward Scheme, both of which are intended to encourage the early reporting of suspicious activities. Since its launch in June 2022, the hotline has received more than 35,000 tip-offs. During the year, the ICTU partnered with the Hong Kong Federation of Youth Groups for the first time and launched the 'Safe Community Plus+' mobile educational truck so as to raise CT awareness among young people through a more interactive approach. In the 2024 Policy Address, the Chief Executive proposed a three-tier CT prevention framework, under which the ICTU will enhance co-ordination of CT efforts of the disciplined services and government departments, and strengthen intelligence gathering, inter-departmental drills, as well as publicity and public education.

诚心齐心 携手护青

「青年兴，则香港兴」。为青少年成长保驾护航是社会各持份者的使命。警队一直秉持「由细做、一齐做、持续做」的理念，深化与教育局、办学团体、学校及家长的合作，培养各年龄层青少年的守法意识及正确价值观。

于二零二三 / 二四学年，警队已为超过 5 000 名教师举办有关禁毒、数码素养、防骗及保护儿童的讲座，加强教师对青少年罪案趋势及防罪知识的掌握。警队连续第三年推出《青少年罪行志·师长攻略》，并首次与香港教育大学合作推出教案及教材，协助教育界持份者更有效地向学生传递防罪信息。警队亦联同教育局，于二零二四年十一月至二零二五年五月期间，在八乡少年警讯永久活动中心为超过 2 000 名中一学生举办名为「我有我价值」的三日两夜训练营。训练内容包括纪律、体能、步操和升旗，全面培养学生的公民责任心、抗逆力及国民身分认同感。

善用科技 优化警政

在数码警政时代，警队积极应用数码科技，以提升内部运作效能，并优化服务质素，当中包括于年内推出「香港警务处网上服务申请平台」第二阶段，提供性罪行定罪纪录查核、无犯罪纪录证明书及查阅刑事定罪纪录资料等申请服务，同时推出新一代「网上预约系统」，供市民使用九类不同服务。此外，警队于港

Since October 2024, the Team has conducted intensive large-scale drills and tests to strengthen the co-ordination and emergency response capabilities among relevant departments and stakeholders. Moving forward, the Force will maintain comprehensive preparations to ensure that all large-scale public events are conducted safely and smoothly.

Joint Commitment to Youth Protection

Hong Kong will prosper only when its young people thrive. Protecting the healthy development of young people is a collective responsibility shared by all sectors. Upholding the principle of 'starting from a young age with continuous and concerted efforts', the Force continues to strengthen collaboration with the Education Bureau, school sponsoring bodies, schools and parents to instil law-abiding awareness and positive values in young people of different age groups.

During the 2023/24 academic year, the Force organised seminars for over 5,000 teachers, covering anti-drug education, digital literacy, anti-fraud awareness and child protection. These sessions deepened teachers' understanding of youth crime trends and equipped them with prevention knowledge. For the third consecutive year, the Force published the *Youth Crime Prevention Booklet*, and collaborated with the Education University of Hong Kong for the first time to devise lesson plans and teaching materials to enable education sector stakeholders to disseminate anti-crime messages to students in an effective manner. The Force also joined hands with the Education Bureau to organise three-day, two-night training camps at the Junior Police Call Permanent Activity Centre in Pat Heung for over 2,000 Form One students between November 2024 and May 2025. The programme encompasses activities such as discipline, fitness training, foot drills and flag-raising to instil in students civic responsibility, resilience and national identity.

Leveraging Technology to Elevate Policing

In the era of digital policing, the Force has proactively embraced digital technologies to enhance internal operational efficiency and elevate service quality. The second phase of the Hong Kong Police Force Online Applications Platform was launched during the year, extending online application services to include sexual conviction record checks, Certificates of No Criminal Conviction and criminal conviction record enquiries. In parallel, a new generation of the Online Booking System was introduced, providing nine different

types of services for public use. A six-month trial of a patrol robot was also conducted at the Passenger Clearance Building of the Hong Kong-Zhuhai-Macao Bridge Hong Kong Port to evaluate the feasibility of using relevant technology to optimise operational effectiveness. To streamline the reporting process and achieve higher service efficiency, self-service kiosks were installed in multiple Police Report Rooms and at public locations, enabling members of the public to report lost property and non-urgent cases conveniently.

警队致力推展数码方案以保障公众安全。其中，警队自主研发的紧急救援手机应用程式 HKSOS，配备专利救援技术，即使在恶劣环境或缺乏流动网络覆盖的偏僻地区，亦能发出求救讯号，让搜救人员掌握求助人的准确位置，缩短搜救时间，提升行动成效。该程式录得逾 11 万下载量，成功于 51 宗事件中协助拯救 120 名市民。为照顾听障及语言

The Force is committed to advancing digital solutions to ensure public safety, among which is the HKSOS emergency rescue mobile app self-developed by the Force. The app utilises patented rescue technology capable of transmitting SOS signals under extreme conditions or in remote areas without mobile network coverage. This enables rescue personnel to accurately locate individuals in need, thereby reducing search and rescue time and enhancing operational efficiency. The app has been downloaded over 110,000 times and has assisted in the rescue of 120 citizens across 51 incidents. To

Having garnered 13 international innovation and technology awards, HKSOS stands as a landmark achievement in the Force's advancement of digital policing.

结语

二零二四年，有赖所有正规、辅警和文职人员的共同努力和专业表现，及社会各界持份者和广大市民对警政工作的鼎力支持，社会安全和稳定得以维持。展望来年，警队上下将继续秉承优良传统，精益求精，与市民携手并肩，坚守维护国家安全、确保香港长期繁荣安定及市民安居乐业的使命，砥砺前行。

Conclusion

The sustained public safety and stability in 2024 should be attributed to the collective dedication and professionalism of all regular, auxiliary and civilian staff, along with the unwavering support for policing from community stakeholders and the general public. Looking ahead, every member of the Force will continue to uphold our fine traditions and pursue excellence with the public hand in hand. The Force will strive ahead with perseverance to realise our mission of safeguarding national security and ensuring Hong Kong's long-term prosperity and stability, so that the public can live and work in peace and contentment.

二零二四年整体罪案录得 94 747 宗，较二零二三年的 90 276 宗增加 4 471 宗（上升 5%）。暴力罪案录得 10 485 宗，较二零二三年的 10 122 宗增加 363 宗（上升 3.6%）。

撇除诈骗案，二零二四年整体罪案数字下跌 185 宗，破案率则上升 1.7 个百分点，达 47.9%，可见骗案上升是带动整体罪案数字上升及拖低整体破案率的主要原因。暴力罪案上升则主要由「裸聊」勒索案所带动。

以每 10 万人口计算的整体罪案有 1 259 宗，当中 139 宗为暴力罪案，而二零二三年则分别是 1 198 宗和 134 宗。二零二四年整体罪案和暴力罪案破案率分别轻微下跌 0.7 及 0.4 个百分点至 30.4% 及 51.7%。

多项传统罪案，如凶杀、行劫、爆窃、伤人及严重殴打、严重毒品罪行、盗窃、刑事毁坏、刑事恐吓、纵火等则有所下跌。这些传统罪案的数字在二零二四年处于较低水平，不少更有纪录或多年以来的新低，而破案率亦相当高，个别更达到有纪录以来最高。

警队继续聚焦打击诈骗案，除了巩固防骗宣传和教育外，亦积极主动与相关政府部门及业界的持份者协作，强化多机构合作以建设系统性预防措施，并精进情报主导执法行动，打击诈骗罪案。

Overall, crimes reported to the Police in 2024 totalled 94,747 cases, showing an increase of 4,471 (up 5%) compared with 2023 (90,276 cases). There were 10,485 cases of violent crimes, an increase of 363 cases (up 3.6%) compared with 2023 (10,122 cases).

Leaving deception cases aside, the overall crime figure recorded a drop of 185 cases in 2024, while the detection rate rose by 1.7 percentage points to 47.9%, indicating that the rise in deception cases was the main reason for the rise in the overall crime figure and a decline in the overall detection rate. The increase in violent crimes was primarily driven by ‘naked chat blackmail’.

For every 100,000 people, 1,259 cases were reported, of which 139 were classified as violent crime, compared with 1,198 and 134 cases respectively in 2023. Detection rates for overall and violent crimes dropped slightly by 0.7 and 0.4 percentage points to 30.4% and 51.7% respectively.

A number of traditional crimes such as homicide, robbery, burglary, wounding and serious assault, serious drug offences, theft, criminal damage, criminal intimidation and arson recorded declines. In 2024, the figures for these traditional crimes remained at comparatively low levels and quite a number of them even reached new lows not seen in years or on record, while their detection rates were considerably high as well, with some even reaching the highest levels on record.

The Force continues to focus on combating deception. Apart from strengthening preventive publicity and education, the Force has been promoting collaboration with relevant government departments and stakeholders via a multi-agency approach to formulate and mandate structural preventive measures, and to enhance intelligence-led enforcement action against deception.

During the year, the Bureau, in conjunction with Guangdong and Macao Police, carried out a tripartite anti-crime operation, THUNDERBOLT 2024 (phase I from June to August, and phase II from November to December), resulting in the arrest of 8,303 persons and the seizure of crime proceeds worth more than \$900 million.

Between June and July, the Bureau co-ordinated enforcement action across the Force and executed Operations CROWBEAK and WINDSHIELD, to combat illegal bookmaking activities during the UEFA EURO 2024. Officers arrested a total of 735 persons and seized \$1.1 million in cash and betting records worth more than \$692 million.

Among the cases handled by the Bureau during the year was a kidnapping case involving the abduction of a three-year-old boy by two female suspects at a shopping centre in Tseung Kwan O. Following a prompt and thorough investigation, the Police swiftly identified the place of captivity and rescued the hostage within 13 hours. The hostage was unharmed, and both female suspects were arrested for kidnapping.

Criminal Intelligence

As the intelligence pivot of the Force, the Criminal Intelligence Bureau manages the Force’s intelligence system and provides intelligence support to major operations and serious crime investigations. To foster intelligence-led policing across the Force, the Bureau strengthens the intelligence network, upgrades computer systems on intelligence analysis, facilitates effective flow of intelligence and provides professional training. The Bureau targets triads and sophisticated crime syndicates, and maintains close liaison with designated Mainland, Macao and overseas law enforcement intelligence agencies in the fight against transnational and cross-boundary crimes.

Commercial Crime

The Commercial Crime Bureau investigates complex commercial crimes, including syndicated fraud that targets government funds. Between October and November, the Bureau, in collaboration with the Social Welfare Department and the five land Police Regions, carried out Operation SCAMBATTLE. They arrested 275 persons suspected of defrauding the Traffic Accident Victims Assistance Scheme of approximately \$14 million through fictitious traffic accidents and fabricated medical certificates.

Narcotics

The Narcotics Bureau combats drug trafficking and the flow of dangerous drugs into Hong Kong by collaborating with stakeholders and law enforcement agencies, and enhances anti-drug awareness of the public by adopting a multi-agency and community-based approach.

Intelligence-led operations conducted during the year detected 97 cases, resulting in the arrest of 181 persons and the seizure of 3.8 tonnes of illicit drugs. Among these was the largest-ever methamphetamine (commonly known as 'Ice') trafficking case, in which 335 kilograms of Ice was seized.

To target etomidate trafficking, particularly drug trafficking on the Internet and social media, the Force conducted a number of intelligence-led operations in the second half of 2024, including Operation AMBERFLOCK executed in November, in which a total of 99 persons were arrested, including 12 youths. Drugs of various kinds, including 1.7 litres of suspected liquid etomidate, 1.2 kilograms of suspected etomidate powder and nearly 10,000 suspected etomidate capsules were seized.

The Leadership Institute on Narcotics (L.I.O.N.), established in 2021, leverages youth power to promote anti-drug messages. L.I.O.N. marked its third cohort in 2024 and continued the achievements of the previous two batches by recruiting 100 secondary students and university students as mentees. The programme aims to equip mentees with anti-drug knowledge and leadership skills through activities such as training, visits and Mainland exchange tours, nurturing them into promising young anti-drug leaders. Top performing mentees also have the opportunity to join overseas exchange programmes to share Hong Kong's anti-drug efforts on a global stage. In 2024, they disseminated anti-drug messages to more than 64,000 members of the public.

该科全年举办各项禁毒教育及宣传活动，以禁毒吉祥物「咪仔」为主题，旨在提高公众，特别是青少年的禁毒意识，宣扬「毒品·咪制！」的信息。

该科推出以小学生为对象的全新剧目「KOL 旅行团—互动禁毒剧场」，于四月至九月期间共上演 51 场，以寓教于乐、互动新颖的方式向超过 8 000 名观众传递「大麻是毒品」这主要信息。防范新兴毒品依托咪酯入侵校园亦是二零二四年禁毒宣传重点，剧场提醒学生依托咪酯是「硬毒品」，切勿堕入毒贩的糖衣陷阱。

财富情报及调查

随着近年诈骗罪案数字上升，相关的洗黑钱活动亦呈现升幅，利用虚拟资产和傀儡户口的洗黑钱手法日趋普遍。

财富情报及调查科由财富调查组、联合财富情报组及总部组成，致力采取积极、全方位的策略，加强警队打击洗钱及恐怖分子资金筹集的能力，以应对挑战。

财富调查组专责进行财富调查及向洗黑钱团伙追讨资产。年内，共 644 人因洗黑钱被定罪，被限制和没收的资产分别约为 3.68 亿元及 2 400 万元。该组亦与内地、澳门及海外执法机构进行三次联合拘捕行动，共拘捕 28 人，瓦解三个跨境洗黑钱团伙。

Financial Intelligence and Investigation

The surge in deception has led to more associated money laundering (ML) activities under an increasing trend of virtual assets and the use of stooge accounts.

The Financial Intelligence and Investigation Bureau (FIIB), comprising the Financial Investigation Division (FID), the Joint Financial Intelligence Unit (JFIU) and the Headquarters, adopts a proactive and all-round approach to strengthen the Force's anti-money laundering (AML) and counter-financing of terrorism (CFT) capabilities in the face of challenge.

The FID proactively conducts financial investigations and pursues asset recovery from ML syndicates. In 2024, a total of 644 persons were convicted for ML, around \$368 million and \$24 million were restrained and confiscated respectively. Three joint arrest operations were undertaken with Mainland, Macao and overseas law enforcement agencies, resulting in 28 persons arrested and the dismantling of three cross-border ML syndicates.

财富调查组亦与律政司合作，精简洗黑钱的检控程序。该组于七月成立户口处理及分析中心，透过整合案件和集中处理案件调查，减少工作重叠。中心成立首四个月，重复查询的情况大幅减少，节省近70% 洗黑钱调查资源。

联合财富情报组致力与本地、内地及海外机构加强合作，交换财富情报，打击洗钱及恐怖分子资金筹集活动。年内，该组共处理和分析 147 660 份可疑交易报告，按年增加 51%。

该组与香港金融管理局及香港银行公会推出财富情报交换平台，让参与银行交换企业户口资料，从而更有效侦测和制止诈骗活动及傀儡户口网络。至今，该平台已吸引 10 家银行参与，交换约 300 宗可疑交易个案的情报。政府正修订《银行业条例》（第 155 章）订明认可机构可交换个人户口资料，以提升平台防止和侦测罪行的能力。

为紧贴金融行业的科技发展，以及加强警队打击日趋复杂的金融罪行的能力，该组于十二月推出名为「交易分析系统」，让用户可更自动化和更高效地分析资金流向及关联网路。另一财富调查专用的先进平台则处于开发阶段，设计运用人工智能接收、处理和分析财富情报，预计于二零二五年至二零二七年分阶段推行。

财富情报及调查科二零二四年与墨西哥共同主导另一特别组织专案——「国家风险评估指引更新专案计划」，并举办一系列课程，当中「国际财富调查课程」吸引数百名来自本港及其他司法管辖区的持份者，探讨打击洗钱及恐怖分子资金筹集的全球新挑战。

在八月的「反洗黑钱月」，该科首度举办「金融业反洗黑钱研讨会」，特设两场专题讨论，邀请讲者分享反洗黑钱策略及对借

The FID also works with the Department of Justice to streamline the ML prosecution process. The FID established an Account-Hub in July to eliminate duplication of efforts by consolidating cases and centralising the handling of investigations. In the first four months since its establishment, about 70% of ML investigation resources were saved by significantly reducing repeated enquiries.

The JFIU deters ML and terrorist financing by fostering co-operation with local, Mainland and overseas agencies to exchange financial intelligence. In 2024, it processed and analysed 147,660 suspicious transaction reports, marking a 51% year-on-year increase.

The Financial Intelligence Evaluation Sharing Tool (FINEST), launched by JFIU with the support of the Hong Kong Monetary Authority and the Hong Kong Association of Banks, allows participating banks to share information on corporate accounts so as to detect and disrupt fraud and stooge account networks more effectively. Ten banks have joined the platform, exchanging intelligence on about 300 suspicious transaction cases. An amendment to the Banking Ordinance (Cap. 155) is underway to enable authorised institutions to exchange information about personal accounts. The initiative is expected to strengthen the crime prevention and detection capabilities of the platform.

To keep pace with technological advancements in the financial industry and strengthen the Force's capabilities in combating increasingly sophisticated financial crimes, the Transaction Analytics System was introduced in December allowing users to evaluate fund flows and networks in a highly automatic and efficient manner. Another advanced platform for the exclusive use of financial investigations, powered by artificial intelligence analytics and designed to receive, process and analyse financial intelligence, is under development and set to be rolled out in phases from 2025 to 2027.

In 2024, the FIIB co-led the Financial Action Task Force project with Mexico, titled the Money Laundering National Risk Assessment Guidance Update. A series of courses was held, notably the International Financial Investigation Course, which gathered hundreds of stakeholders from local counterparts and other jurisdictions to explore solutions for global AML/CFT challenges.

During the AML Month in August, the Bureau hosted its first Financial Institutions AML Forum, featuring two panel discussions with keynote speakers who shared AML strategies and insights into leveraging

The Financial Intelligence and Investigation Bureau made use of panel discussions for the first time to explore public-private collaboration strategy against ML.

「洗黑钱专家」为自愿兼任职务队，有超过 50 名成员专责支援前线财富调查，出庭提供专家证供，及就洗黑钱案件向法庭申请加刑。首宗由「洗黑钱专家」成员提供专家证供，获法庭接纳为专家证人的案件于七月定罪。

「洗黑钱专家」亦根据《有组织及严重罪行条例》（第 455 章）向法庭提供数据，以支持就洗黑钱案件向傀儡户口持有人的加刑申请。截至二零二四年，法庭已就 31 宗案件包含 43 名傀儡户口持有人增加 13% 至 33% 的刑期，以加强阻吓作用。

The Money Laundering Expert Cadre (MLEC), a volunteer secondary duty cadre consisting of more than 50 members, supports frontline financial investigations, provides expert evidence in court, and applies to courts for heavier sentences in ML cases. In July, the MLEC secured its first conviction where its expert testimony was accepted by the court.

The MLEC also provides statistics to courts in support of applications for enhanced sentences against stooge account holders in ML cases under the Organized and Serious Crimes Ordinance (Cap. 455). As of 2024, the sentences of 43 stooge account holders in 31 cases were enhanced by 13% to 33% to step up the deterrent effect.

联络事务

联络事务科在打击罪行及交流情报上，继续悉力促进各持份者及联络伙伴的沟通。透过不同平台，联络事务科统筹各类型会议，除了就策略项目与其他执法机关进行高层次交流，亦与联络伙伴保持联系，以兼顾调查跨境案件的需要。该科致力与内地、澳门及海外执法机关维持有效的伙伴关系。培训方面，该科与内地机关及国际刑警组织联手为警务人员提供最新的罪案趋势及其他警务知识。

防止罪案

防止罪案科（防罪科）采取多管齐下的方式，宣传防止罪案的信息。为进一步推动社群参与防罪灭罪工作，防罪科于五月十六日举行安全城市大使计划一周年暨 2024 委任仪式，感谢 47 位安全城市大使过去一年透过他们的网络宣扬防罪信息，并表扬八间推动防罪工作的机构。活动上亦委任了新一届 36 名安全城市大使，截至二零二四年年底，透过罪案警报联网每周接收警队防罪资讯的市民逾 300 万人次。凭藉防罪网站「安全城市·香港」的成功经验，防罪科推出人工智能聊天机器人，走入校园向学生传递防罪信息。防罪科亦为公私营机构、保安公司和物业管理公司提供专业保安建议。此外，防罪科每年举办标准防止罪案课程，邀请工作伙伴介绍最新防罪科技，提升警务人员的专业知识。

利用科技防罪灭罪

警方在政府主导的全港性「锐眼」计划中，协调跨部门资源运用，联同不同政府部门透过安装闭路电视，提升警队预防及侦查罪案能力，从而提升地区治安水平。截至年底，警队已于全港各区完成安装 615 组镜头，相关闭路电视为刑事案件提供重要线索，截至十二月底，系统已协助警方侦破 122 宗案件，包括凶杀、行劫、爆窃等严重罪案，并拘捕 202 人。在 28 宗凶杀、行劫或爆窃案件中，有 90% (25 宗) 于

Liaison Bureau

The Liaison Bureau supports communication with stakeholders and strategic partners in the areas of fighting crime and intelligence sharing on criminal activities. It co-ordinates meetings, including high-level exchanges with international strategic partners and working-level conversations, to cope with cross-border investigative needs. The Bureau strives to maintain an effective partnership with Mainland, Macao and foreign law enforcement agencies. In terms of training, the Bureau works with Mainland authorities and INTERPOL to provide Force members with the latest information on crime trends and policing tactics.

Crime Prevention

The Crime Prevention Bureau adopts a multi-pronged approach to promote crime prevention. To enhance collaboration with the community in preventing and combating crime, the Bureau held the 1st Anniversary of the SafeCity Ambassadors Scheme cum Appointment Ceremony 2024 on May 16. The event recognised the 47 Ambassadors for their contributions in disseminating crime prevention messages through their networks over the year, and commended eight organisations for their efforts in promoting crime prevention. On the same occasion, a new batch of 36 SafeCity Ambassadors was appointed. As of 2024, over three million people received the Force's weekly crime alerts through the Crime Alerts Network. Building on the success of the SafeCity.HK website, the Bureau introduced a new artificial intelligence Chatbot to engage with schools and disseminate crime prevention messages to students. The Bureau also provides professional security advice to public and private organisations, security companies and property management companies. Furthermore, it runs a Standard Crime Prevention Course annually to enhance officers' professional knowledge of the latest crime prevention technologies through exchanges with external partners.

Utilising Technologies to Prevent and Combat Crime

Under the Government-led territory-wide initiative, 'SmartView', the Police co-ordinate the use of inter-departmental resources and collaborate with different government departments to enhance the Force's capabilities in crime prevention and detection through the installation of closed circuit television (CCTV) cameras, thereby enhancing regional law and order. By the end of 2024, the Force has installed 615 sets of CCTV cameras across the territory. They provided crucial leads in criminal cases, and by end-December, the system has assisted the Police in detecting 122 cases, including serious crimes such as murder, robbery and burglary, resulting in the arrest of 202 persons.

两天内破案，显示闭路电视大大提升破案效率。

就影像分析科技的应用方面，警务处于二零二四年的兰桂坊万圣节活动中，首次应用「人流估算系统」，透过影像分析技术实时估算人群密度，提升警方在人群管理行动的效率。

法证支援

鉴证科为警队及其他执法机关提供专业的指纹鉴证、枪械法证、收集脱氧核糖核酸 (DNA) 和摄影服务。

刑事纪录

刑事纪录科的「警务处姓名索引电脑系统」全天候 24 小时为前线警务人员及其他政府部门提供支援服务。近年该科更积极利用科技推行工作流程数码化，以提升行动效率和优化内部运作程序。

家庭冲突及性暴力政策组

家庭冲突及性暴力政策组负责制订、推行和检视警队处理虐待儿童、虐待长者、家庭暴力、性暴力及青少年罪行的政策和程序，确保人员采取一致及专业的行动。政策组与其他政府部门和非政府组织，在政策范围内的跨专业程序、机构间合作、培训及协调等事宜紧密合作。

该组持续优化处理虐儿个案的程序。该组于二零二二年与律政司成立的「保护易受伤害证人及儿童专责小组」已处理过百宗涉及易受伤害证人的案件，包括涉及机构的虐儿、幼童被虐致死、与未成年人有关的性侵犯及有组织卖淫，而跨部门合作亦有效加快调查、检控及完善福利支援。为应对《强制举报虐待儿童条例》实施后预计增加的举报个案，新增的家居录影室已于十二月投入服务，以支援涉及儿童和易受伤害证人的录影会面工作。

Among the 28 cases involving murder, robbery or burglary, 90% (25 cases) were solved in two days. This demonstrates that the CCTV system significantly enhances the efficiency in detecting crime.

Regarding the application of video analytic technology, the Force utilised the Crowd Size Analysis System for the first time during Halloween events in Lan Kwai Fong in 2024. The system uses video analytic functions to perform real-time crowd density assessments, effectively improving the efficiency of the Police's crowd management operations.

Forensic Support

The Identification Bureau provides services on professional fingerprint examination, firearms-related forensics, DNA collection and photography to the Force and other law enforcement agencies.

Criminal Records

The Criminal Records Bureau provides round-the-clock support to frontline officers and other government departments in relation to information on the Police Operational Nominal Index Computer System. With a view to enhancing operational efficiency and optimising internal processes, the Bureau has proactively applied technology to digitalise its workflow in recent years.

Family Conflict and Sexual Violence Policy Unit

The Family Conflict and Sexual Violence Policy Unit formulates and implements the Force's policies and procedures regarding child abuse, elderly abuse, domestic violence, sexual violence and juvenile crime, to ensure consistent and professional police action. The Unit works closely with other government departments and non-governmental organisations (NGOs) on multidisciplinary procedures, inter-agency co-operation, training and co-ordination within its policy areas.

The Unit constantly strives to improve on procedures for handling child abuse cases. The Vulnerable Witness and Child Protection Task Force, formed in collaboration with the Department of Justice in 2022, has handled hundreds of serious and complex cases involving vulnerable witnesses, ranging from institutional child abuse and cases involving fatalities, to sexual abuse and organised prostitution concerning minors. The cross-departmental collaboration also accelerates investigations and prosecutions, and improves welfare support. To prepare for an expected increase in reports with the upcoming implementation of the Mandatory Reporting of Child Abuse Ordinance, a new vulnerable witness interview suite commenced operation in December to support video-recorded interviews with children and vulnerable witnesses.

On October 10, the Unit held the first Vulnerable Witness Support Cadre Professional Development Day to enhance Force members' professionalism when handling cases involving child abuse and mentally incapacitated persons. The training aimed to improve communication with vulnerable groups, strengthen professional case-handling skills, and support the mental well-being of cadre members. More than 200 officers attended.

The Unit plays a bridging role in strengthening the education sector's capacity to deliver crime prevention education. Since January, the Unit has collaborated with the Narcotics Bureau, the Cyber Security and Technology Crime Bureau and the Anti-Deception Coordination Centre to conduct training seminars for teaching staff of major school sponsoring bodies, covering crucial topics like anti-drug awareness, digital literacy, anti-deception awareness and child protection.

Training at Police Tactical Unit Headquarters

The Police Tactical Unit Headquarters (PTU HQ) undertakes comprehensive reviews and trains police officers in public event policing as well as anti-crime, anti-riot and counter-terrorism tactics.

In view of the successive holding of mega events, such as the upcoming 15th National Games, the PTU HQ conducted intensive research and studies on the large-scale operations in recent years to consolidate and refine training programmes by focusing on crowd management and contingency planning. New technology and equipment were sourced to increase the Force's operational efficiency, including a scenario-based interactive multiplayer simulation, small unmanned aircrafts and a mixed reality training system.

国家 National Security 安全

国家安全是头等大事，维护国家安全是警务处处长首要行动项目之一。随着《香港国安法》及《维护国家安全条例》相继实施，香港特别行政区（特区）维护国家安全的法律制度和执行机制得以完善。国家安全处（国安处）全力支持特区政府及警队的相关工作，持续审视本地及国际形势并作出相应部署，积极与各持份者保持紧密沟通与合作，加强市民维护国家安全和守法意识，巩固维护国家安全的护城墙。

National Security is a top priority, and safeguarding national security falls within the Commissioner's Operational Priorities. Following the enactment of the National Security Law (NSL) and the Safeguarding National Security Ordinance (SNSO), the legal system and enforcement mechanisms for safeguarding national security in the Hong Kong Special Administrative Region (HKSAR) have been improved. The National Security Department (NSD) fully supports the work of the Government and the Force in this regard. The NSD continuously monitors local and global situations, makes corresponding deployment, and maintains close communication and co-operation with all stakeholders proactively to enhance public awareness of safeguarding national security and abiding by the law, thereby fortifying the defence of national security.

国安卫士 不负所托

警务处与律政司及保安局组成《基本法》第二十三条立法专责小组，为拟定立法建议做了大量准备工作，包括深入研究和分析国家与外国维护国家安全的法律。专责小组高效专业、不负所托，协助特区政府履行《基本法》第二十三条立法的宪制责任和历史使命。《维护国家安全条例》于三月二十三日正式刊宪生效，确保国家安全得到有效保障。行政长官颁授「行政长官表扬榜」奖状予专责小组，以及「维护国家安全功章」予参与维护国家安全的公职人员，包括警队人员，赞扬他们作出的重大贡献。

Guardians of National Security Live Up to Society's Trust

The Force, in collaboration with the Department of Justice and the Security Bureau, formed the Task Force on Basic Law Article 23 Legislation to do a significant amount of preparatory work for drawing up the legislative proposals, including in-depth studies and analysis of the laws on safeguarding national security of the country and foreign countries. The highly efficient and professional Task Force lived up to its trust, assisting the HKSAR Government in discharging its constitutional responsibility and historic mission to enact the Basic Law Article 23 legislation. The SNSO, which has been published in the Gazette and came into effect on March 23, ensures robust protection of national security. The Chief Executive presented an award certificate of the Chief Executive's Award for Exemplary Performance to the Task Force, as well as the Medal for Safeguarding National Security to public officers, including Force members, who have been involved in the safeguarding of national security, in recognition of their significant contributions.

有法必依 违法必究

国安处负责调查危害国家安全的犯罪案件，执行《香港国安法》及《维护国家安全条例》下的职责，并与其他持份者建立跨部门合作，联手打击危害国安罪行。自二零二零年七月成立以来，截至二零二四年十二月三十一日，国安处一共拘捕 316 名涉嫌干犯危害国家安全罪行的人士，当中约 60% 已被检控。

Laws Must Be Observed and Lawbreakers Be Held Accountable

The NSD is responsible for investigating offences endangering national security, enforces the duties under the NSL and the SNSO, and fosters cross-departmental collaboration with other stakeholders to combat crimes endangering national security. By December 31, 2024, the NSD has arrested 316 individuals suspected of committing offences endangering national security since its establishment in July 2020, with approximately 60% prosecuted.

案情极为严重且牵涉最多被告的「串谋颠覆国家政权案」经过逾百日审讯后，高等法院原讼法庭裁定 45 名被告「串谋颠覆国家政权罪」罪名成立，首要分子判囚 10 年；其余被告则被判囚四年两个月至七年九个月不等。判刑显示一众被告干犯非常严重的颠覆罪行，必须予以严惩。

Among these cases, the Court of First Instance of the High Court handed down sentences of a case of conspiracy to commit subversion, which involved serious circumstances and the largest number of defendants, after over a hundred days of trial. The court convicted 45 defendants of conspiracy to commit subversion and sentenced the principal offender to 10-year imprisonment. The others received jail terms ranging from four years and two months to seven years and nine months. The sentences showed that the subversion offence of the defendants was extremely serious and they should be severely punished.

持续优化 专业团队

要维持高水平的安全，警队须以总体国家安全观强化内部制度，以底线思维做好各种防御的准备和预案。在《维护国家安全条例》生效后，国安处积极加强内部培训，为前线人员进行多次宣讲会，确保人员全面理解《维护国家安全条例》和当中要求。此外，国安处亦推出警队训练日培训套件，让所有人员进一步了解并掌握《维护国家安全条例》要点及处理危害国安活动的工作守则。

Professional Team Makes Continuous Improvement

To maintain a high level of security, it is essential to enhance the Force's internal system through a holistic approach to national security, and adopt a bottom-line mindset in making preparations and contingency plans for all kinds of defence. After the SNSO has come into effect, the NSD actively stepped up internal training by conducting briefing sessions for frontline officers to ensure their thorough understanding of the SNSO and the requirements therein. Additionally, the NSD developed a training package for Force training days to help all officers further grasp the key provisions of the SNSO and the working procedures for handling activities endangering national security.

年内，国安处开展「国家安全大使」计划，加强总部及前线人员与国安处之间的协作，并于学年初向各区警民关系组提供国家安全教育套件，以便他们适时向学校提供最新国安教育资讯。此外，国安处于警察总部警队图书馆设置「安邦定阁」，以提升警务人员维护国家安全的知识及使命感。

There are three sections, namely Books, Milestones and E-learning in which officers may access to national security-related information and experience interactive learning so as to gain a deeper understanding of relevant legislations and knowledge.

携手同心 维护国安

在地缘政治威胁下，国家安全仍然存在风险，香港乃至国家发展均受阻碍，故此我们不能「好了伤口忘了痛」。外部势力不断抹黑香港的同时，亦有在港人士利用「软对抗」煽动市民对政府及国家的不满。因此，维护国家安全需要广大市民的共同参与。国安处举报热线于二零二零年十一月开始运作，市民亦可透过短讯、微信及电邮提供与国安相关资讯。热线运作至今，累计收到超过 85 万个举报讯息，为维护国家安全工作作出重大贡献。

Together, We Safeguard National Security

Geopolitical challenges remain a threat to national security, impeding the development of both Hong Kong and the country. As such, we should not forget the pain even though the wound has been healed. External forces continue to smear the situation of Hong Kong, while some people in Hong Kong engage in 'soft resistance' to incite discontent with the Government and the country. Therefore, the safeguarding of national security needs the participation of the general public. Since November 2020, the NSD has operated a hotline to receive reports. Members of the public can also submit national security-related information via SMS, WeChat and email. To date, more than 850,000 tip-offs have been received, making substantial contributions to the safeguarding of national security.

在教育方面，国安处联同各警队单位及其他纪律部队合办不同活动，让不同阶层的市民多方面认识国家安全。为进一步让市民了解国家安全对香港长期繁荣稳定的重要性，国安处会定期在官方微信帐号分享与国家安全相关的时事和知识。展望来年，国家安全教育可进一步走进校园、联动社区，让社会各界包括未来主人翁了解国家安全如何与日常生活息息相关，携手同心，共同维护国家安全。

In terms of education, the NSD partners with Force formations and other disciplined forces to organise various activities that help people from all walks of life understand national security from diverse aspects. To enable the public to recognise the significance of national security for Hong Kong's long-term stability and prosperity, the NSD runs an official WeChat account to share regularly current affairs and knowledge related to national security. Looking ahead, national security education can be further spread into schools and connected with the community, to enable various community sectors, including the future leaders, to understand the close relation between national security and their daily lives, thereby joining hands and working together to safeguard national security.

国安处于国家安全展览厅展出不少展品，并推出「NSmart 国安问答活动」；亦在「全民国家安全教育日暨香港警队 180 周年警察学院开放日」设置升级版「国安号」国家安全展览，让不同阶层市民多方面认识国家安全。

为配合政府《香港智慧城市蓝图》的推行，以及趋向跨国合作和以科技为本的警务环境，资讯系统部致力更全面迈向「数码警政」，以迎接当中的挑战，并提供安全、可靠及有效的资讯及通讯科技服务，以支援警务处处长的《策略方针》及《首要行动项目》。服务质素监察部向警队各级人员推广诚信、专业精神、精益求精及积极创新的文化。

To tie in with the Government's policy on implementing the Smart City Blueprint for Hong Kong, the Information Systems Wing is dedicated to a wider application of digital policing and the tackling of emerging challenges amid the rapidly changing policing environment being more transnational and technology-oriented. The objectives are to provide secure, reliable and effective information and communications technology services that support the Commissioner's Strategic Directions and Operational Priorities. The Service Quality Wing promotes integrity and professionalism, and facilitates continuous improvement and innovation throughout the Force.

资讯系统部

为提升服务质素和效率，资讯系统部在二零二四年推出和优化多个流动應用程式及创新数码警政方案，并着重于保障公众安全，以及便利市民报案和办理网上申请服务。

警队于一月推出紧急救援手机应用程式 HKSOS，以提升远足和其他户外活动意外的救援效率。HKSOS 配备包括 Signal Radar 和 RescueAI 的最新救援技术，让救援单位即使于地势复杂或没有流动电话网路覆盖情况下，仍可远距离侦测手机求救讯号。讯号可由等待救援者或其指定联络人启动，在紧急情况下「一键直达」999 报案中心，让警方迅速掌握求助人的准确位置，在紧急事故及公共安全方面发挥重大作用。年内，HKSOS 总下载量超过 11 万，于 51 宗事件中协助 120 名市民脱险，而长时间搜救行动亦大幅减少逾八成。

Information Systems Wing

To enhance service quality and efficiency, the Information Systems Wing (ISW) introduced and optimised various mobile apps and innovative digital policing initiatives in 2024, with particular focus on protecting public safety and facilitating citizens to report cases and process applications online.

In January, the Force launched the HKSOS emergency rescue mobile app to enhance the efficiency of rescue operations related to hiking and other outdoor activity incidents. Equipped with the latest rescue technologies including Signal Radar and RescueAI, HKSOS enables rescue units to detect distress signals from mobile phones at a distance, even in complex terrain or areas without mobile network coverage. The signal can be activated by the person waiting for the rescue or their designated contact who can reach the 999 reporting centre with one touch in emergency situations, enabling the Police to swiftly locate the distressed person. This plays a significant role in emergency response and public safety. More than 110,000 downloads have been recorded for HKSOS, which assisted 120 individuals in 51 cases during the year. The application has also drastically reduced prolonged search-and-rescue missions by over 80%.

警队于二零二四年十二月推出「香港警务处网上服务申请平台」第二阶段，服务扩展至性罪行定罪纪录查核、无犯罪纪录证明书及查阅刑事定罪纪录资料。警队亦同时推出新一代「网上预约系统」，供市民使用九类不同服务。平台自二零二三年起提供边境禁区许可证、道路活动许可证和外景拍摄的网上申请服务。

自二零二一年起，警队分阶段在多间警署报案室设置自助服务机，便利市民及旅客透过以用者为本的电子平台报失财物及就非紧急案件报案。截至二零二四年底，警队已设置 23 部自助服务机，分布在 16 间警署的报案室、四个边境管制站，以及金钟、钻石山和罗湖三个港铁站，处理近 34% 的报失财物个案。

The Force launched the second phase of the Hong Kong Police Force Online Applications Platform in December 2024, enabling applications for sexual conviction record checks, Certificate of No Criminal Conviction and Data Access Request for Criminal Conviction Data. At the same time, the Force also introduced a new generation of the Online Booking System, providing nine different types of services for public use. Since 2023, the platform has provided online application services for Closed Area Permits, Road Event Permits and location filming.

The Force has been introducing self-service kiosks in the report rooms of police stations by phases, offering a convenient channel for citizens and tourists to report lost property and non-emergency cases through a user-centric platform since 2021. By end-2024, the Force has introduced 23 self-service kiosks in the report rooms of 16 police stations, four border control points and three MTR stations in Admiralty, Diamond Hill and Lo Wu. The self-service kiosks handled nearly 34% of lost property cases.

As a proof-of-concept project of the ISW, a patrol robot has been undergoing a six-month field test in the Passenger Clearance Building at the Hong Kong-Zhuhai-Macao Bridge Hong Kong Port since October. During the year, the Force published a series of the *Current Strategic Issues Bulletin* and advanced the key projects set out under Strategic Directions 2022-2024, while the Efficiency Studies Bureau began the strategic planning process for Strategic Directions 2025-2027 to be promulgated in early 2025. Apart from carrying out environmental scanning to identify strategic issues that would affect the policing environment, the strategic planning process also included external and internal surveys as well as interviews with Force members.

The Force Inspection Process, conducted by the Research and Inspections Branch, seeks to spearhead compliance and accountability across the Force. As part of this process, the e-Smart Check initiative continued throughout the year to mitigate non-compliance risks while raising the Force's compliance rates. The Branch also conducted thematic studies in several key areas to enhance the Force's professionalism and efficiency.

To enhance the operational efficacy, manpower efficiency and service quality of core service deliverables, the Force actively digitalises internal work processes as well. Projects underway include setting up an interactive voice response system service on the report room hotline, automating the correspondence of case details and progress with informants, and monitoring case investigation and prosecution progress electronically.

在法定的两层处理投诉警察机制下，投诉警察课处理公众对警队成员的投诉，并与独立监察警方处理投诉委员会（监警会）合作履行其法定职能，以提升警队的服务质素。

投诉警察课在二零二四年接获 1 856 宗须汇报投诉，较二零二三年的 1 736 宗上升 6.9%，当中约 95% 是性质轻微的投诉。年内，该课继续推出「CAPO 提提你」电子海报、预防投诉短片「包大人」及「CAPO 快讯」、「一 Click 冇投诉」线上问答游戏、「360 环回警点」训练短片等项目，以提升人员预防投诉的意识。此外，投诉警察课以「透过简便方式解决」程序处理性质轻微的投诉，务求迅速、精准及有效地回应市民的不满及关注事项，亦推出宣传活动，提升市民对相关处理程序的认识。

Complaints and Internal Investigations Branch

Under a statutory two-tier complaint system, the Complaints Against Police Office (CAPO) handles complaints lodged by the public against Force members and collaborates with the Independent Police Complaints Council (IPCC) to discharge its statutory functions, so as to enhance the Force's service quality.

In 2024, the CAPO received 1,856 reportable complaints, increased by 6.9% from 1,736 cases in 2023. About 95% of the complaints were of a minor nature. During the year, the CAPO continued to undertake initiatives to raise officers' awareness of how to prevent complaints, including the 'CAPO Friendly Reminder' e-poster, complaint prevention videos featuring 'Justice Bao', 'CAPO News', the 'One Click No Complaint' online quiz and Studio ImmerXe 360 training videos. Moreover, the CAPO has adopted the informal resolution procedures to resolve complaints of a minor nature and respond to citizens' discontent and concerns in a swift, targeted and effective way. Publicity campaigns were also conducted to enhance public understanding of the relevant handling procedures.

Force members endeavour to minimise waste and prevent pollution. The Steering Committee on Green Management provides directives and monitors the implementation of energy-saving and environmental management initiatives in the Force.

Environmental Performance in 2024

Green Buildings

The Force has adopted different renewable energy technologies across its premises. Photovoltaic (PV) panels harness renewable energy on the rooftops and in the open car parks of police stations and other locations, including the Kowloon East Regional Headquarters Complex, Hong Kong Auxiliary Police Headquarters, the Police Officers' Club and the Fan Garden for married junior police officers. Plans are underway to extend the installation of solar PV systems to other police premises.

Solar water heating systems are in use in the Kowloon East Regional Headquarters Complex, Tsim Sha Tsui Police Station and Yau Ma Tei Police Station.

为提升环保绩效，警队规划新的基础设施和设备时，会积极采用绿色建筑措施，包括在香港警察学院综合训练中心（缸瓦甫）的建筑工程，以及西区已婚警务人员宿舍的重建计划，均采用混凝土「组装合成」建筑法，由厂房预制可独立组装的合成组件，再运送至工地装嵌，从而减少建筑工地的尘埃和噪音污染，并透过更妥善的废物管理，减少建筑废料。

警队持续在辖下处所研究引入环保设施，务求减少能源消耗，例如将现有照明系统提升至发光二极管（LED）灯照明，并以高效能型号取代老旧制冷设备。此外，建筑物天台亦采用隔热物料，以降低表面温度，从而减低空调系统的能源消耗。

To enhance environmental performance, the Force actively integrates green construction measures in planning new infrastructure and facilities. The Concrete Modular Integrated Construction (MiC) method is adopted for the Hong Kong Police College Integrated Training Centre (Kong Nga Po) construction project and the redevelopment of the Western Police Married Quarters. Freestanding integrated modules are prefabricated in the factory and then transported to the site for assembly and installation, thereby reducing dust and noise pollution from the building site and minimising construction debris through better waste management.

The Force has constantly incorporated green features into its premises to reduce energy usage. Examples include upgrading lighting systems to light-emitting diodes (LEDs) and replacing ageing air-conditioning chillers with high-efficiency models. Anti-heat materials are also applied on rooftops to lower building surface temperature and reduce energy consumption of the air-conditioning system.

绿色运输

为鼓励广泛使用电动车以改善路边空气质素和减少温室气体排放，警队正增加辖下处所的充电设施，并扩大使用范围，包括在警察总部大楼、东九龙总区总部大楼、柴湾已婚警察宿舍、香港仔警署、警察体育游乐会和警官会所安装各类充电设施，

Green Transport

To encourage wider use of electric vehicles (EVs) so as to improve roadside air quality and reduce greenhouse gas emissions, the Force is expanding the number and coverage of charging facilities at its premises. 内部措施

警队推行环保措施，减少能源消耗，包括移除过量照明装置以减少用电；安装动态感应器和自动照明系统，以自动关掉无人使用的电灯；调整户外照明装置的运作时间以善用日照；在晚上十时或之前至翌日早上七时关掉用于装饰、宣传和广告的户外照明。警队亦设置独立监控的空气调节系统，以有效调节房间温度，并为办公室设备加装定时装置，节约用电。

其他内部措施还包括缩短升降机和扶手电梯在非繁忙时段的运作时间，以及设置天台花园和利用防紫外线隔热窗膜降低室温。

此外，警队在电灯开关掣和电器附近，以及茶水间和洗手间内张贴告示和宣传贴纸，提倡节约能源、节约用水和少用抹手纸，并且张贴标语，鼓励员工使用楼梯代替升降机。

节约用水

警队的节约用水措施包括采用较小的花洒头，并在水龙头加装节流器和自动感应装

Housekeeping Measures

The Force implements green measures to reduce energy consumption. Excessive lightings are removed to lower electricity use. Motion sensors and automatic lighting systems are installed to turn off lights not in use automatically. Operating hours of outdoor lighting are adjusted to maximise the use of sunlight. External lights for decorative, promotional and advertising purposes are switched off at or before 10pm, until 7am the following day. Independent air-conditioning control systems are also deployed for efficient control of room temperatures. Timers are built into office equipment to save electricity.

Other housekeeping measures, namely shortening the operating hours of lifts and escalators during off-peak periods, setting up rooftop gardens and using ultraviolet window films to lower room temperature, are also adopted.

Moreover, notices and stickers are displayed near light switches and electrical appliances, as well as in pantries and toilets, to promote energy saving and encourage staff to use less water and paper towels. Slogans are also displayed to promote the use of staircases instead of lifts.

Water Conservation

Water-saving measures adopted include deploying smaller shower heads, taps equipped with flow controllers and automatic sensors,

置。警队处所亦采用双掣式冲厕水箱和感应式尿厕冲水阀。同时，建筑物加装雨水收集系统，用作灌溉植物。

减废回收

警队的回收计划所收物品包括纸张、铝罐、胶樽、玻璃樽、碳粉盒、经使用煮食油、光管、充电电池和电器。警队处所内设有回收桶，方便回收废纸、塑胶、金属和玻璃樽。

为推动厨余回收，警队参与由环境保护署（环保署）推展的「厨余收集先导计划」。

警队的员工餐厅和康乐场地均遵循有关管制即弃塑胶的法例，并配合优化塑胶购物袋收费计划，不再提供即弃胶餐具和塑胶产品。警队亦在公用地方张贴海报，鼓励员工使用可重用餐具和自备购物袋。

警队陆续使用「零废物」数码资讯显示屏、LED 电子墙和其他电子方式发布资讯，取代传统告示板。为减省用纸，警队已推行无纸会议，并鼓励市民透过警察公众网页（www.police.gov.hk）和警队各社交平台获取资讯。在二零二三至二四年度，警队共使用 233 569 令纸张，按年减少 2%。

Waste Reduction and Recycling

The Force runs recycling programmes for paper, cans, plastic bottles, glass bottles, cartridges, used cooking oil, fluorescent lamps, rechargeable batteries and electrical appliances. Recycling bins are placed on the Force's premises to facilitate the recycling of waste paper, plastics, metals and glass bottles.

To promote food waste recycling, the Force takes part in the Pilot Scheme on Food Waste Collection launched by the Environmental Protection Department (EPD).

Staff canteens and recreational venues have complied with regulations on disposable plastics and observe the enhanced Plastic Shopping Bag Charging Scheme. Disposable plastic tableware and related plastic products are no longer provided. Posters are displayed in common areas to encourage staff to use reusable tableware and bring their own shopping bags.

The Force progressively deploys zero-waste digital signage boards, LED video walls and other electronic means to replace traditional notice boards for information dissemination. To minimise paper usage, paperless meetings have been introduced. Members of the public are encouraged to view the Police Public Page at www.police.gov.hk and the Force's social media channels for information. In 2023-24, the Force consumed 233,569 reams of paper, representing a year-on-year decrease by 2%.

警察趸船配备高标准的生化处理生活污水设施，以减少废水排放。

惜食运动

为响应环保署的《惜食约章》，警队要求警署的餐厅营办商审视食物供应量和提供不同份量的选择，鼓励员工审慎点餐，带走剩菜，以减少厨余。

室内空气质素

警队已参加室内空气质素检定计划，并取得卓越级 / 良好级检定证书。

环保采购

为支持政府的环保采购政策，警队购置各种环保产品，包括制服、办公室设备和文具。此外，新警用船只所配备的灭火筒符合政府环保产品参考清单的规定。

碳管理

警队在一月一日至十二月三十一日期间，为 68 幢警察建筑物进行碳审核。结果显示，这些建筑物每平方米楼面面积的温室气体平均排放量为 0.12 公吨二氧化碳，较二零二三年下跌 0.7%。

能源绩效

政府以二零一八至一九年度相若的运作环境为基准，为二零二四至二五年度订下 6% 的「绿色能源目标」。这目标不仅适用于政府建筑物，亦涵盖政府的基建设施，不但省电，也节约其他能源如煤气和石油气，亦顾及可再生能源对减碳的帮助。

在二零二三至二四年度，警队能源表现提升 2.8%，其中节约能源方面占 2.7%，制造可再生能源方面占 0.1%。

Indoor Air Quality (IAQ)

The Force participates in the IAQ Certification Scheme and has achieved Excellent/Good Class IAQ certification.

Green Procurement

In support of the Government's green procurement policy, the Force purchases various green products such as uniforms, office equipment and stationery. Fire extinguishers equipped in new police vessels have also aligned with the Government's Reference List of Green Products.

Carbon Management

Carbon audits of 68 police buildings were conducted from January 1 to December 31. The results showed that greenhouse gas emissions from these buildings on average contained 0.12 tonnes of carbon dioxide per square metre of floor area, a 0.7% decrease as compared to the year 2023.

Energy Performance

The Government has set a 6% 'Green Energy Target' for 2024-25 under comparable operating conditions in 2018-19 as the baseline. This target covers not only government buildings but also its infrastructural facilities, and will help saving electricity and other forms of energy, such as town gas and liquefied petroleum gas. It has also taken into account the contribution of renewable energy to carbon reduction.

In 2023-24, the Force achieved an energy improvement of 2.8%, with 2.7% attributed to energy savings and 0.1% to renewable energy generation.

人员环保意识

环保管理的概念已纳入各员工训练课程和活动内，并会定期在简报会、会议和训练环节中推广。「环保纠察」会向人员推广办公室环保意识，并定期发放环保小贴士。

参与有关机构的活动

警队除了继续与基督教励行会合办「捐衣助人运动」外，亦参与世界自然基金会举办的「地球一小时 2024」熄灯活动。二零二四年，警队收集的衣物和旧物合共超过 154 公吨。

Environmental Awareness of Staff

Green management concepts are incorporated into staff training programmes and activities, and discussed regularly at briefings, meetings and training sessions. Green Wardens are assigned to promote in-house awareness of green office practices and circulate green tips periodically.

Engagement with Stakeholders

The Force co-organises the Used Clothing Collection Campaign with the Christian Action and participated in Earth Hour 2024, a lights-off event held by the World Wide Fund for Nature. In 2024, more than 154 tonnes of clothing and other used items were collected.

未来工作

警队全力支持政府的环保政策和应对气候变化倡议，并会继续在日常运作中贯彻「物尽其用、废物利用、循环再用」的「三用」原则，采用具能源效益方案，密切监察节能措施的成效，并探索扩大和推广环保管理原则的方法。

Way Forward

The Force fully supports the Government's environmental protection policies and initiatives to combat climate change. It will continue to implement the 3-R principles—reduce, reuse, recycle—across daily operations, adopt energy-efficient features, closely monitor the effectiveness of energy-saving measures and explore ways of expanding and promoting green management principles.

实践绿色理念

警队致力透过实施节能减废、环保教育和管理措施，以保护环境及推动可持续发展。

警队遵守环保法规、环保实务守则和良好的环境管理实务，并在可行的情况下采用电子方式以减少纸张消耗。二零二四年，警队主要建筑物每平方米楼面面积的温室气体平均排放量为 0.12 公吨二氧化碳。

年内，警队在「捐衣助人运动」中共收集超过 154 公吨衣物及旧物，提升大众及员工对环保的关注，减少浪费。

提升社会责任

关爱社会

警队致力推行关怀文化，积极支持多项社会措施，不断为社会可持续发展作出贡献。

二零二四年，警队荣获多个奖项，包括香港红十字会输血服务中心的「给血联盟」金章及首届「公务员义工嘉许计划」的「卓越义工团队奖（大部门）金奖」，在关爱社区层面上作的奉献备受肯定。

此外，警队全力参与各项慈善或募捐活动，在全年收集到共 646 袋血液。人事服务及职员关系科举办及参与各项慈善活动，合共筹得超过 80 万元善款。

Go Green

The Force is committed to environmental protection and sustainable development through energy-saving, environmental education and management initiatives.

The Force complies with green legislation, environmental-friendly codes of practice and good environmental management practices. Low paper usage is achieved by employing electronic means whenever practicable. In 2024, the average greenhouse gas emissions from its major buildings contained 0.12 tonnes of carbon dioxide per square metre of floor area.

To reduce wastage and raise environmental awareness among the public and staff, the Force collected more than 154 tonnes of clothing and other used items under the Used Clothing Collection Campaign 2024.

Social Responsibility

Care for Community

The Force promotes a caring culture by actively supporting a wide range of social initiatives. It is committed to making contributions to the sustainable development of society.

In 2024, the Force won several awards including the 'Give Blood Alliance' Gold Award from the Hong Kong Red Cross Blood Transfusion Service and the Gold Prize of the Outstanding Volunteer Team Award (Large Department) under the inaugural Civil Service Volunteer Commendation Scheme. It fully affirmed the Force's contribution in caring for the community.

Additionally, the Force participates enthusiastically in charity and donation events, collecting 646 units of blood in the whole year. The Personnel Services and Staff Relations Branch also raised more than \$800,000 through various Force-wide charitable activities.

The Force fully supported the 2024 Law Enforcement Torch Run for Special Olympics Hong Kong, held in September.

关顾员工

警队十分重视人员的健康，不遗余力地改善人员福利，并持续打造健康正面的工作环境。

警队是最早资助合格雇员接种流感或带状疱疹疫苗及进行心脏电脑扫描检查的政府部门之一。二零二四年，受惠有关资助计划而注射疫苗的人员超过 5 500 人，获批心脏电脑扫描检查配额的人员则有 498 人，当中 10 名人员需转介接受紧急诊断或治疗，而该资助计划为他们提供及时协助，或因此拯救了他们宝贵的生命。

警队于二零二三年与社区医疗及专职医疗服务机构合作，推出「义医同行」计划，向人员提倡及早预防和处理各类型的健康问题，从而改善健康状况。二零二四年，超过 1 680 名人员受惠于有关的外展义诊或专科诊所服务。

Care for Staff

The Force cares very much about the health and well-being of staff. Continuous efforts are dedicated to enhance staff welfare and foster a healthy and positive work environment.

The Force was among the first government departments to introduce subsidy programmes for eligible employees to receive influenza and herpes zoster vaccinations and cardiac Computed Tomography (CT) scans. In 2024, more than 5,500 officers were vaccinated and 498 officers were approved for cardiac CT scans. Among them, 10 officers were identified as requiring urgent consultation or treatment and the timely subsidy offered by the programme might have saved their lives.

The 'Dr. V' volunteer project, launched in 2023 in partnership with community medical and allied health services, promotes early prevention and treatment of health issues to enhance officers' physical well-being. In 2024, more than 1,680 officers benefited from the free outreaching medical consultation or specialist clinic services.

警队举办感谢活动，向参与「义医同行」计划的医生、医疗和专职医疗服务团体致谢。
The Force held a reception to express gratitude to all doctors and medical and allied health services groups that joined the 'Dr. V' project.

强化治理

作为政府部门，警队一直严格遵守特区政府在管治上的最高标准。

警队致力于巩固社会支柱，实现可持续发展。警队在二零二三年全面检视人力资源政策，让不同背景和能力的人士参与遴选程序，更于香港人力资源管理学会「卓越人力资源奖 2024/25 年度」中荣获企业类别「多元共融大奖铜奖」，人力资源管理策略备受肯定。

二零二四年，警队管理层指示人员从企业社会责任层面，扩展至环境、社会及管治层面的新框架。警队重要的第一步，便是成为首个为环境、社会及管治报告成立指定工作小组的政府部门，以展示对可持续发展的关注和贡献。

有关详情，请参阅《环境、社会及管治报告》全文。

Stronger Governance

As a government department, the Force is committed to upholding the highest standards of governance in alignment with the HKSAR Government.

On the community front, the Force strives to advance social pillars to achieve sustainable development. The human resources policy underwent a comprehensive review in 2023 to allow individuals with diverse backgrounds and abilities to participate in the recruitment process, resulting in recognition from the Hong Kong Institute of Human Resource Management (HKIHRM), which presented a merit award under the grand award of diversity and inclusion in the organisational category at the HKIHRM Human Resource Excellence Awards 2024/25.

In 2024, the Force's management directed a transition from CSR initiatives to the ESG domain. Marking a significant first step, the Force became the first government department to form a designated working group to produce an ESG Report, showcasing the Force's concerns and contributions in sustainability.

For more details, please refer to the full ESG report.
